

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph [0052], with the following amended paragraph:

[0052]

The expression and emotion analysis section 16 analyzes the expression and emotion of the user of the video telephone 1 based on the image data, the voice data, or the key input data from the input data section 10A. The expression and emotion analysis section 16 also analyzes the expression and emotion of the user of the video telephone 2 based on the image data, the voice data, or the key input data from the video telephone 2. If the facial image of the user is input, the expression and emotion analysis section 16 analyzes the facial image and detects the expression and emotion of laughing, being angered, etc.
